

Van Mahotsav 2018

According to a report by the Ministry of Environment and Forests, the total remaining tree cover of India that included forests and non-forest areas was 24.16% in 2015.

Realising the importance of trees for our future, **Womenite** celebrated 'The Festival Of Trees', '**VAN MAHOTSAV**' in a bid to raise awareness about the importance of trees and encouraged people to plant more of them. After our team came into action, **1000 saplings** were planted.

Through this act we not only aimed at planting trees just for a day but we also wanted to convey the message that through **TEAMWORK**, **DETERMINATION** and **LOVE** it is always possible to deal with any concern in the world as "Love is like a tree, it grows of its own accord, it puts down deep roots into our whole being."

Engaged local community to join us and take care of the environment
