CHANNELISING ENERGY FOR IMPACT

ANNUAL REPORT 2022-23

FY 2022-23

CHANNELISING ENERGY FOR IMPACT

"Everything is energy and that is all there is to it. Match the frequency of the reality you want and you can not help but get that reality. It can be no other way. This is not philosophy. This is physics."

~Albert Einstein.

After about two years of the pandemic that tested our reliance, this year was all about unleashing the renewed energy of the recovering economy for **IMPACT**. Inspired by equality, humanity and compassion, we set out with a goal to make this a reality, a norm and not an exception.

It is in these times that we realise the wonders of combined efforts and collaboration. Through strategic partnerships with multiple organisations, institutions, government bodies and individuals, we were able to achieve more than what each of us was individually capable of. We also came to realise the magnetic energy that the youth today carries. Having crossed the mark of 1000+ volunteers this year, we were able to channelize their zeal, efforts and action-orientation to create real impact for the society.

With all hands aboard, we present to you our journey to complete the incomplete, achieve the unachieved and begin what was thought.

MESSAGE TO OUR STAKEHOLDERS

Mr. Harshit Gupta - Founder and Chief Executive Member

<<To be shared by Harshit>>

"Everything is energy and that is all there is to it. Match the frequency of the reality you want and you can not help but get that reality. It can be no other way. This is not philosophy. This is physics."

~Albert Einstein.

After about two years of the pandemic that tested our reliance, this year was all about unleashing the renewed energy of the recovering economy for **IMPACT**. Inspired by equality, humanity and compassion, we set out with a goal to make this a reality, a norm and not an exception.

It is in these times that we realise the wonders of combined efforts and collaboration. Through strategic partnerships with multiple

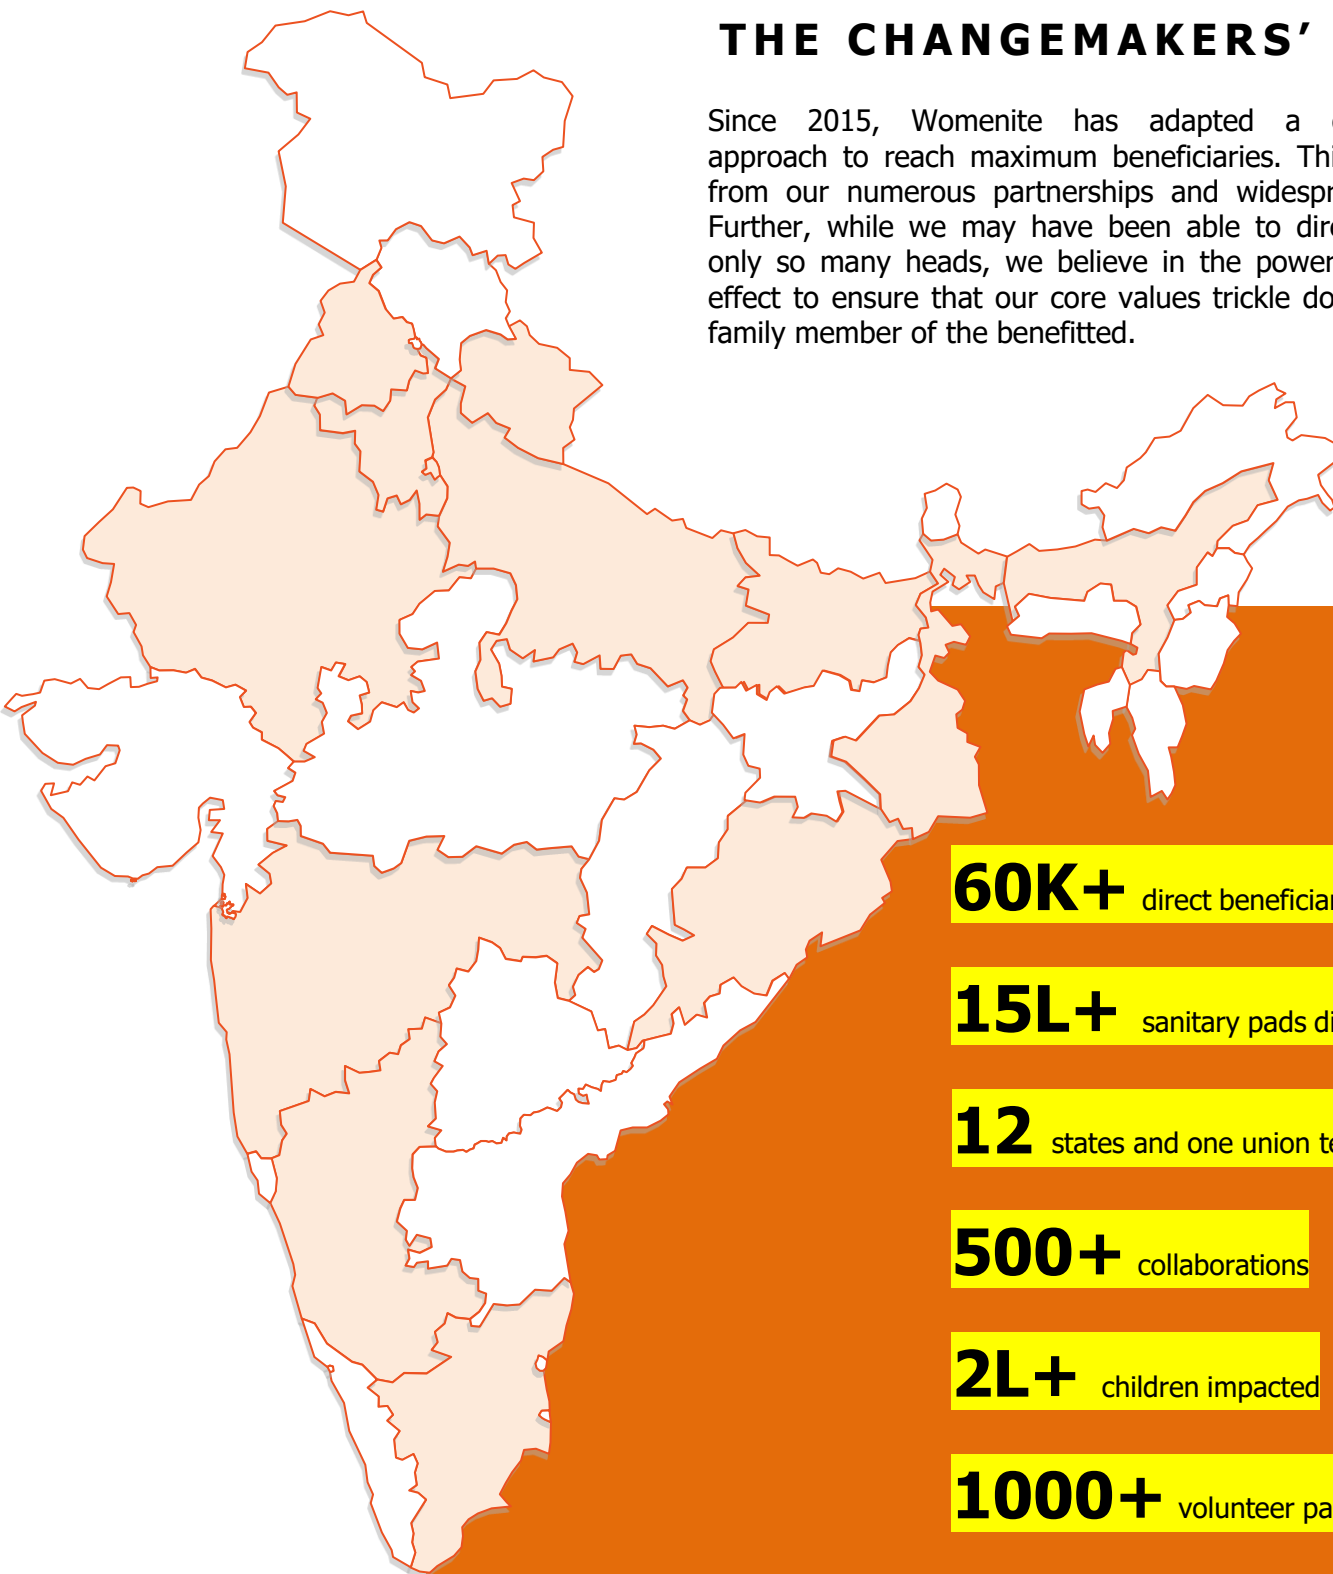

organisations, institutions, government bodies and individuals, we were able to achieve more than what each of us was individually capable of. We also came to realise the magnetic energy that the youth today carries. Having crossed the mark of 1000+ volunteers this year, we were able to channelize their zeal, efforts and action-orientation to create real impact for the society.

With all hands aboard, we present to you our journey to complete the incomplete, achieve the unachieved and begin what was under thoughts.

THE CHANGEMAKERS' STORY

Since 2015, Womenite has adapted a collaborative approach to reach maximum beneficiaries. This is evident from our numerous partnerships and widespread events. Further, while we may have been able to directly benefit only so many heads, we believe in the power of network effect to ensure that our core values trickle down to every family member of the benefitted.

60K+ direct beneficiaries

15L+ sanitary pads distributed so far

12 states and one union territory serviced

500+ collaborations

2L+ children impacted

1000+ volunteer partners

ABOUT US

Our Vision, Mission & Goals, Walking down the Memory Lane, Our Executive Team & Advisors

The Problems we are trying to solve

Health & Nutrition

Over 75% of the healthcare infrastructure is concentrated in metro cities, where only 27% of the total population resides—the rest 73% of the Indian population lacks even basic medical facilities

18.7% of the women and 16.2% of the men have a below normal Body Mass Index (BMI)

Women's Health

22.4% of women aged 15-24 years do not use hygienic methods of sanitation during their menstrual period

1.5% of the women aged 18-29 years have experienced sexual violence before the age of 18

Education & Inclusion

28.50% of the women are illiterate vis-à-vis 15.60% of the men

11.30% of married women still do not get to participate in more than three household decisions

Poverty & Financial Independence

16.4% of India's population lives in poverty and about 4.2% of the population lives in severe poverty

21.4% of the women do not have a bank account for self use

WOMENITE – THE CHANGEMAKERS

“Be the change you want to see in the world”
~Mahatma Gandhi.

Womenite stemmed from an incessant and urgent need to address the ineptitude of a society which was not only functioning on a set of inherently flawed ideals but seemingly thriving on them too. We are a youth-led, youth-driven social organisation committed to bringing a change. Through education, love and empowerment we seek to create a society equal

in its norms of gender and appreciative of differences. Stemming from these base values of equality, compassion and humanity, we have widened our scope of activities to include healthcare, environment protection, education, skill development and human welfare which, we believe, are important for the upliftment of our civilization.

OUR VISION – what are we aiming for?

- To help create a world acceptive and appreciative of people because of who they are and not impose their ideas of gender, sexuality, ability, race, religion, class or caste on others.
- To uphold the values of equality, compassion and humanity through improvements in healthcare, environment protection, education, skill development and human welfare.

OUR MISSION – how will we do it?

- Strategically identifying the root-cause of problems that we undertake to fix.
- Making judicious use of the capital, resources and support we garner, to create maximum impact for the society.
- Working through and in collaboration with relevant communities and stakeholders to further our cause.

A SYNOPSIS OF OUR PAST PROJECTS

#EndPeriodPoverty Campaign

Objective: To improve menstrual wellness and allied practices for women and girls.

Activities: Distribution of sanitary pads (15 lakh+), collaborating with schools, communities and regional bodies (500+) to spread awareness on the subject, providing consultations to change practices and curb stigma.

Beti Bacho, Beti Padhao (extended)

Objective: To make education accessible to every girl child.

Activities: Awareness building sessions across 70+ government schools, sensitizing both boys and girls to these issues.

A SYNOPSIS OF OUR PAST PROJECTS

COVID Relief

Objective: To assist all those adversely affected by the COVID-19 pandemic.

Activities: Distribution of dry and cooked ration kits (to 2000+ families), oxygen concentrators, oxygen cylinders, PPE kits, gloves, masks, sanitizers and sanitary napkins across various parts of India.

Daan Utsav (Festival of Giving)

Objective: To make necessities accessible to the under privileged.

Activities: Distribution of ration kits, clothes, blankets, stationery and sanitary pads to persons below poverty line.

Invitee to the **UN Women Brown Bag** Dialogue where we collected 10,000 commitments for UN's campaign for gender equality – HeForShe.

Recipient of the V-Award, by **United Nations Volunteers**, UNDP for exemplary social work.

Co-Winners of the **International World Merit Day** event to promote SDGs organized by World Merit, UK, across 50+ countries with 250+ events.

Awarded with **YourStory's** 'Women on a Mission' Award in the '**HeForHer**' category in 2022.

CEO, Harshit Gupta received the **National Youth Award** for exemplary work done through Womenite. He is the youngest person from Delhi to receive this award.

Recognised as one of the Star Changemakers for **Global Action on Poverty (GAP)** 2016.

5 GENDER EQUALITY

10 REDUCED INEQUALITIES

17 PARTNERSHIPS FOR THE GOALS

Duration

Full Year
(2022-20223)

Coverage

2 UTs & 5 states
(New Delhi, Chandigarh, Bihar,
Assam, Manipur, Odisha, Uttar
Pradesh)

◆ PROJECT HIGHLIGHTS ◆

We conducted **15 events** across India under this campaign. Our activities traversed holding **workshops** for girls and women, especially women living below poverty line or in areas with poor hygiene conditions or exhibiting societal taboos. Topics such as menstrual hygiene, sexual abuse and preventive health management were covered in these workshops. We also visited numerous schools & colleges where **lectures** were taken by gynecologists providing tips on addressing menarche and managing one's menstrual health.

We distributed about **3,00,000 lakh sanitary pads**, including some cloth pads, to **~15,000 girls and women**. Under this project, we **adopted select villages*** where we conducted these distributions on a regular basis to ensure a real shift in habits and continually address any physical, mental or societal issues that stem during adoption.

*Villages that we have adopted include *Nangli Poona, Siraspur, Bhlaswa, Bhaktawar Pur, Shahbad Daulat Pur and Bawana.*

We installed **15 sanitary pad vending machines** on the eve of International Women's Day. These were installed across government departments and other offices to provide easy access and stimulate adoption. Further, our team assisted with the installation of **incinerators** at select places to facilitate safe and sustainable disposal of sanitary pads.

Regular education is another important step to make these efforts sustained and long lasting. We were instrumental in **sponsoring the education** of many girls by providing scholarships through schools and colleges.

Challenges encountered during implementation

Identifying the real beneficiaries was a challenge. Since a lot of our activities were conducted in remote areas, we had the difficult task of choosing the right local partners who would not only manage the resources well but would also pass on the benefits to the last mile. Our team was tasked with ensuring that benefits reached the grassroots and that there were no leakages at any stage.

By partnering with local organisations, we could also bridge the cultural and linguistic gaps that would otherwise have hindered effective communication.

Girl Child Education

Objective: To ensure access to primary, secondary and college education to girls, especially from financially weaker sections of the society.

Sustainable Development Goals:

Duration

Full Year
(2022-20223)

Coverage

New Delhi

26%

of funds received were spent
towards girl child education

After an objective selection process, we short-listed select schools and colleges to sponsor the education of girl child. Scholarships were provided based on merit and financial conditions to ensure that education of girls was not affected.

Project Durga Shakti

Objective: To break stigma around menstrual hygiene, raise awareness about menstrual health management, and provide access to sanitary pads. This project was administered in collaboration with the Delhi State Legal Services Authority (DLSA) and is an extension of the #EndPeriodPoverty Campaign.

Sustainable Development Goals:

Duration

Full Year
(2022-20223)

Coverage

New Delhi

◆ PROJECT HIGHLIGHTS ◆

1,00,000

sanitary pads distributed

5,000

girls and women impacted

VASANT VIHAR, DELHI

Project Durga Shakti was launched in association of Delhi State Legal Services Authority in the presence of Mr. Kanwal Jeet Arora, Member Secretary, DSLSA, Ms. Namrita Aggarwal, Special Secretary, DSLSA, Mr. Sushant Changotra, Additional Secretary, DSLSA and Sumeet Anand, Secretary, DLSA

MAJNU- KA - TILLA, DELHI

Our members and officials of DLSA distributed sanitary napkins amongst the locals and residents of 4 nearby slum areas.

GURUDWARA BANGLA SAHIB

Various sessions on menstrual health & nutrition were conducted for women living in shelter homes. The team distributed food kits and sanitary pads, followed by the screening of the movie 'PadMan' which is based on breaking the stigma around menstrual health.

Beneficiary Speaks

Mrs Madhu Bala, Bhalswa Jahangir Village

"Womenite thought of women development at a time when our families were struggling to make ends meet. We are so occupied in earning our two meals that our health, especially menstrual health, was an ignored subject matter. In these times, Womenite's team visited our area 10-15 times to distribute sanitary pads and provided us the much-needed guidance to manage our menstrual health better. I sincerely appreciate the team's foresight and efforts and would like to express my heartfelt gratitude. Thank you."

(translated from a video testimonial in Hindi)

◆ FUTURE PLANS ◆

- ❑ Distributing 50 lakhs+ sanitary pads to eligible women and girls
- ❑ Promoting sustainable options like cloth pads and menstrual cups, wherever possible
- ❑ Installing sanitary pad vending machines at identified villages
- ❑ Extending the geographical reach of the program to include more states
- ❑ Installing incinerators at select areas for safe disposal of sanitary pads
- ❑ Partnering with more schools and colleges across India to hold menstrual wellness sessions on a regular basis

Health Checkups

Objective: To conduct preventive health check-ups, especially for persons vulnerable to disorders and with limited access to health facilities.

Sustainable Development Goals:

Duration

March, June 2022

Coverage

New Delhi

◆ PROJECT HIGHLIGHTS ◆

300
beneficiaries

At Womenite, we recognize that workers (which includes a significant portion of females) often suffer from occupational health hazards which go unnoticed until its adverse effects are detected. This not only increases medical expenses but is also a cause of fatalities. Some of these conditions are avoidable with basic preventive care.

Health check-up drives were conducted for migrant labourers and factory workers, as a preventive mechanism to ensure their fitness.

Check-ups were conducted in association with Aakash Healthcare Hospital and Shree Aggarsain International Hospital.

BASIC NECESSITIES

Blanket Distribution, Ration Distribution

Daan Utsav

Objective: To make basic necessities like food, clothing and toiletries accessible to all.

Vivah Productions - 9212212562

Sustainable Development Goals:

Duration

Full Year
(2022-20223)

Coverage

New Delhi, Bihar

◆ PROJECT HIGHLIGHTS ◆

The campaign was broadly divided into two parts – Poshan Abhiyaan (Nutrition) and Joy of Giving (Helping the poor)

POSHAN ABHIYAAN

Under this project we distributed ration kits containing a mix of grains, pulses, salt, spices and toiletries to those in need. We specifically focused on women, daily wage labourers and families affected by COVID-19.

10,000 individuals (majorly women)
were benefited from this program

JOY OF GIVING

Items such as old clothes and stationery were collected from societies and individuals for distribution among the needy. This project also saw active participation from corporates who sponsored ration kits, books and blankets for persons below poverty line.

#Blanket Distribution

Objective: To make basic clothing (including blankets) accessible to all.

Sustainable Development Goals:

Duration

December, January 2023

Coverage

New Delhi, Bihar

07th January 2023.

"It was a cold, dewy night in Delhi. The temperature outside was about 7 degrees Celsius. It gave me the chills to even step out at this time of the night. As I loaded our car with packed blankets, I thought of the horror of having to sleep outside in this dreary cold. We drove past rows of building to a fleet of footpaths very near to the main road. There lay, a dozen of homeless, mostly families of migrant workers trying with shivering bodies to get some sleep. We approached two women whose faces were soaked with the lights of the passing vehicles on the road. They hadn't had any food that day.

That day as I returned home, windswept and cold but warmed at heart, I realized there is so much more that I can do for the people around us."

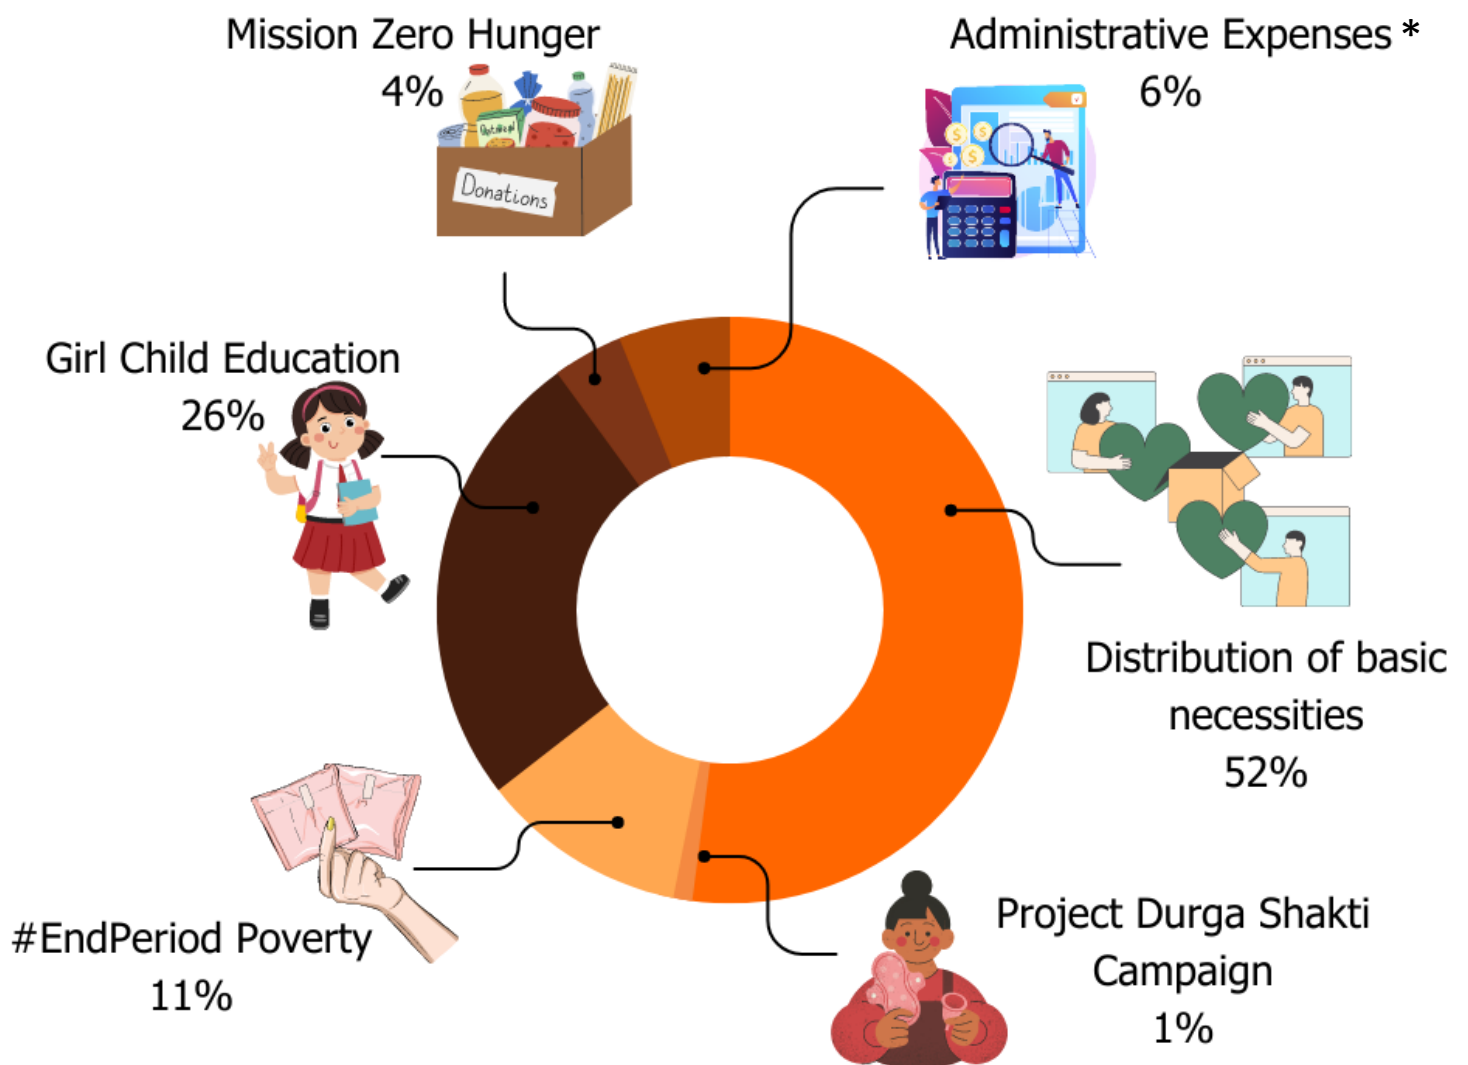

~ a volunteer's experience at blanket distribution.

200 beneficiaries across
5 events in Gurugram, Wairabad,
and Patna

FY 2022-23

APPLICATION OF FUND ACROSS PROJECTS

*Administrative expenses includes salaries to staff, office expenses and other miscellaneous expenses

THE WAY FORWARD

Skill Development Center

Our efforts cannot be sustained till the time the beneficiaries do not attain financial independence. In this pursuit, we aim to start a skill development center for training women in vocational skills and imparting financial acumen to help them achieve financial stability. We further aim to utilize their capabilities here for the benefit of other women, thus creating a ripple effect.

Sustainability

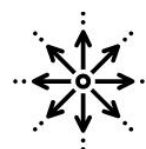

We wish to reduce our carbon footprint to the extent possible. We plan to introduce a project that shall be aimed to use sustainable products wherever possible. This shall include propagating use of cloth pads and menstrual cups in place of non-biodegradable sanitary pads. We also plan to install incinerators for safe disposal of sanitary pads at various locations.

Monitoring Mechanisms

Impact is not just about introducing a solution. It also involves providing necessary support to ensure successful execution of the solution. We aim to strengthen our monitoring and feedback mechanisms through constant dialogue and communication with our beneficiaries. This shall not only ensure maximum adoption but shall also help us track our performance better.

Geographic Expansion

We want our solutions and services to reach maximum beneficiaries. We endeavour to expand our presence pan India through systematic partnerships and team building.
